Article Index

Number 1

Simultaneous 3D-PIV and temperature measurements using a new CCD-based holographic interferometer
B. Skarman, J. Becker and K. Wozniak 1
Field tests of correction procedures for turbine flowmeters in pulsatile flows
R. Cheesewright, K. N. Atkinson, C. Clark, G. J. P. ter Horst, R. C. Mottram and J. Viljeer 7
Application and improvement of the Youden analysis in the intercomparison between flowmeter calibration facilities
Guo Bin Wu and Huang Meng 19
Nuclear magnetic resonance (NMR) two-phase mass flow measurements
G. J. Krüger, A. Birke and R. Weiss 25
Error analysis based development of a bubble velocity measurement chain
G. L. Rossi 39
Technical Note: Effects of upstream pipe fittings on the performance of orifice and conical flowmeters
S. V. Prabu, R. Mascomani, K. Balakrishnan and M. S. Konnur 49
Book Reviews 55
PatentsALERT 59
Calendar 67

Number 2

Numerical simulations of a piston-type flowmeter of high linearity
J. Wojtkowiak, W. N. Kim and J. M. Hyun 69
Development of a calibration facility for small mass flow rates of gas and the uncertainty of a sonic venturi transfer standard
S.-i. Nakao, Y. Yokoi and M. Takamoto 77
The development of dual bluff body vortex flowmeters
J. P. Bentley, R. A. Benson and A. J. Shanks 85
Development of fluidic flowmeters for monitoring crude oil production
H. Wang, G. H. Priestman, S. B. M. Beck and R. F. Boucher 91
On the measurement of skin friction from the turbulent velocity profile
J. C. Gibbings 99
Comparison techniques for small sonic nozzles
N. Bignell 109
Book Review 115
PatentsALERT 117
Calendar 129

Numbers 3/4

Special Issue: Optical Methods in Flow Measurement
Editorial 131
Optical flow field investigations for design improvements of an ultrasonic gas meter
H. Köchner, A. Melling and M. Baumgärtner 133
Systematic investigation of pipe flows and installation effects using laser Doppler anemometry—Part I. Profile measurements downstream of several pipe configurations and flow conditioners
G. Wendt, B. Mickan, R. Kramer and D. Dopheide 141
Systematic investigation of pipe flows and installation effects using laser Doppler anemometry—Part II. The effect of disturbed flow profiles on turbine gas meters—a describing empirical model
B. Mickan, G. Wendt, R. Kramer and D. Dopheide 151
Analysis of installation effects by means of computational fluid dynamics—CFD vs experiments?
A. Hilgenstock and R. Ernst 161
PIV measurements of the time-averaged flow velocity downstream of flow conditioners in a pipeline
Th. Schlüter and W. Merzkirch 173
Comparison of velocity and turbulence profiles downstream of perforated plate flow conditioners
E. P. Spearman, J. A. Sattary and M. J. Reader-Harris 181
Point-velocity methods for flow-rate measurements in asymmetric pipe flow
S. Frank, C. Heilmann and H. E. Siekmann 201
Investigations of uncertainties from hot water flowmeters using laser Doppler velocimetry
J.-F. March 211
Development of a flow meter for instantaneous flow rate measurements of anaesthetic liquids
F. Durst, A. Melling, D. Trimis and P. Volkholz 215
LDA-Measurements in natural gas high-pressure pipelines for the testing of turbine gas meters
H. Gehlhaar, Kd. Gerlach and R. Winter 223
Fibreoptical spatial filter velocimeter for measurement of local liquid velocity
D. Petrak, M. Köhler, K. Rosenfeld, E. Przybilla and S. Dietrich 231
The application of quadrature demodulation techniques for the investigation of flows
H. Müller, V. Strunck and D. Dopheide 237
Recent applications of particle image velocimetry in aerodynamic research
C. Willert, M. Raffel, J. Kompenhans, B. Stasicki and C. Kähler 247
Velocity resolved laser Doppler blood flow measurements in skin
K. Dörschel and G. Müller 257
Velocimetry with spatial filters based on sensor arrays

K. Christofori and K. Michel 265
An instantaneous method for real-time velocity vector display in flows
B. Ruck 273
On a novel approach to evaluate Schlieren interferograms of axisymmetric refractive index fields
A. Glathe and G. Wozniak 281
Three-dimensional Doppler Global Velocimetry in the flow of a fuel spray nozzle and in the wake region of a car
I. Roehle 287

Keyword Index

anaesthetic liquids
instantaneous flow rate, laser Doppler anemometry 215

asymmetric flow
flow-rate, laser Doppler velocimetry, point-velocity methods, uncertainty 201

axisymmetric refractive index field
Schlieren interferometry, differential interferometry, numerical interferogram evaluation 281

blood flow measurement
laser Doppler anemometry, skin 257

bluff body
vortex shedding, vortex flowmeters 85

bubble velocity
two-phase flows, error analysis 39

calibration
sonic nozzle, discharge coefficient, comparison, Reynolds number dependence 109

CCD-recording
digital holography, computational focusing 1

Coanda device
fluidic flowmeter, venturi, vortex amplifier 91

code validation
pipe flow, simulation, Fluent, ultrasonic flow metering, numerical calibration 161

comparison
high-pressure measurements, natural gas pipelines, laser Doppler velocities, turbine gas meter 223

comparison
sonic nozzle, discharge coefficient, calibration, Reynolds number dependence 109

computational focusing
digital holography, CCD-recording 1

conical flowmeter
orifice meter, mitre bends 49

differential interferometry
Schlieren interferometry, axisymmetric refractive index field, numerical interferogram evaluation 281

digital holography
CCD-recording, computational focusing 1

discharge coefficient
sonic nozzle, calibration, comparison, Reynolds number dependence 109

disturbed pipe flow
flow conditioning, particle image velocimetry 173

error analysis
bubble velocity, two-phase flows 39

fibreoptical hydrometric probe
spatial filtering velocimeter, flowmeter 231

flow conditioner
installation effects, laser Doppler anemometry, flow profiles, flow straightener 141

flow conditioning
disturbed pipe flow, particle image velocimetry 173

flow conditioning
LDV, velocity profiles 181

flow field display
real-time velocity vectorisation, particle tracking anemometry, velocity vectors, flow vectors 273

flow profiles
installation effects, laser Doppler anemometry, flow conditioner, flow straightener 141

flow profiles
installation effects, laser Doppler anemometry, turbine meters 151

flow straightener
installation effects, laser Doppler anemometry, flow profiles, flow conditioner 141

flow vectors
real-time velocity vectorisation, particle tracking anemometry, velocity vectors, flow field display 273

flow visualisation
ultrasonic gas meter, laser Doppler anemometry 133

flow-rate
asymmetric flow, laser Doppler velocimetry, point-velocity methods, uncertainty 201

flowmeter
numerical simulation, linearity 69

flowmeter
spatial filtering velocimeter, fibreoptical hydrometric probe 231

flowmeter calibration facility
Youden analysis, laboratory intercomparison, Student's *t*-distribution 19

flowrate measuring
hot water, laser Doppler velocimetry (LDV) 211

fluctuations
nuclear magnetic resonance, two-phase flow, mass flow, velocity probability distribution, noise 25

Fluent
pipe flow, simulation, ultrasonic flow metering, code validation, numerical calibration 161

fluidic flowmeter
venturi, Coanda device, vortex amplifier 91

gas flow measurement
small mass flow rate, sonic venturi, gravimetric method, transfer standard 77

gravimetric method
small mass flow rate, sonic venturi, gas flow measurement, transfer standard 77

high speed digital imaging
particle image velocimetry (PIV), rotor aerodynamics, trailing vortex, industrial wind tunnels 247

high-pressure measurements
natural gas pipelines, laser Doppler velocities, turbine gas meter, comparison 223

hot water
flowrate measuring, laser Doppler velocimetry (LDV) 211

industrial wind tunnels
particle image velocimetry (PIV), high speed digital imaging, rotor aerodynamics, trailing vortex 247

installation effects
laser Doppler anemometry, flow profiles, flow conditioner, flow straightener 141

installation effects
laser Doppler anemometry, flow profiles, turbine meters 151

instantaneous flow rate
anaesthetic liquids, laser Doppler anemometry 215

laboratory intercomparison
Youden analysis, flowmeter calibration facility, Student's *t*-distribution 19

laser Doppler anemometry
blood flow measurement, skin 257

laser Doppler anemometry
installation effects, flow profiles, flow conditioner, flow straightener 141

laser Doppler anemometry
installation effects, flow profiles, turbine meters 151

laser Doppler anemometry
instantaneous flow rate, anaesthetic liquids 215

laser Doppler anemometry
quadrature demodulation 237

laser Doppler anemometry
ultrasonic gas meter, flow visualisation 133

laser Doppler velocimetry
flow-rate, asymmetric flow, point-velocity methods, uncertainty 201

laser Doppler velocimetry (LDV)
hot water, flowrate measuring, laser Doppler velocimetry (LDV) 211

laser Doppler velocities
high-pressure measurements, natural gas pipelines, turbine gas meter, comparison 223

LDV
flow conditioning, velocity profiles 181

linearity
flowmeter, numerical simulation, 69

mass flow
nuclear magnetic resonance, two-phase flow, velocity probability distribution, noise, fluctuations 25

mitre bends
orifice meter, conical flowmeter, 49

natural gas pipelines
high-pressure measurements, laser Doppler velocities, turbine gas meter, comparison 223

noise
nuclear magnetic resonance, two-phase flow, mass flow, velocity probability distribution, fluctuations 25

nuclear magnetic resonance
two-phase flow, mass flow, velocity probability distribution, noise, fluctuations 25

numerical calibration
pipe flow, simulation, Fluent, ultrasonic flow metering, code validation, 161

numerical interferogram evaluation
Schlieren interferometry, differential interferometry, axisymmetric refractive index field 281

numerical simulation
flowmeter, linearity 69

orifice meter
conical flowmeter, mitre bends 49

particle image velocimetry
flow conditioning, disturbed pipe flow, 173

particle image velocimetry (PIV)
particle image velocimetry (PIV), high speed digital imaging, rotor aerodynamics, trailing vortex, industrial wind tunnels 247

particle tracking anemometry
real-time velocity vectorisation, velocity vectors, flow vectors, flow field display 273

pipe flow
simulation, Fluent, ultrasonic flow metering, code validation, numerical calibration 161

point-velocity methods
flow-rate, asymmetric flow, laser Doppler velocimetry, uncertainty 201

pulsation profiles
turbine meter over-registration, turbine meter correction procedures 7

quadrature demodulation
laser Doppler anemometry, 237

real-time velocity vectorisation
particle tracking anemometry, velocity vectors, flow vectors, flow field display 273

Reynolds number dependence
sonic nozzle, discharge coefficient, calibration, comparison 109

rotor aerodynamics
particle image velocimetry (PIV), high speed digital imaging, trailing vortex, industrial wind tunnels 247

Schlieren interferometry
differential interferometry, axisymmetric refractive index field, numerical interferogram evaluation 281

simulation
pipe flow, Fluent, ultrasonic flow metering, code validation, numerical calibration 161

skin
blood flow measurement, laser Doppler anemometry 257

skin friction
surface shear, velocity profile 99

small mass flow rate
sonic venturi, gravimetric method, gas flow measurement, transfer standard 77

sonic nozzle
discharge coefficient, calibration, comparison, Reynolds number dependence 109

sonic venturi
small mass flow rate, gravimetric method, gas flow measurement, transfer standard 77

spatial filtering velocimeter
fibreoptical hydrometric probe, flowmeter 231

spatial filtering velocimetry
two-phase flow 265

Student's *t*-distribution
Youden analysis, laboratory intercomparison, flowmeter calibration facility 19

surface shear
skin friction, velocity profile 99

trailing vortex
particle image velocimetry (PIV), high speed digital imaging, rotor aerodynamics, industrial wind tunnels 247

transfer standard
small mass flow rate, sonic venturi, gravimetric method, gas flow measurement 77

turbine gas meter
high-pressure measurements, natural gas pipelines, laser Doppler velocities, comparison 223

turbine meter correction procedures
turbine meter over-registration, pulsation profiles 7

turbine meter over-registration
turbine meter correction procedures, pulsation profiles 7

turbine meters
installation effects, laser Doppler anemometry, flow profiles 151

two-phase flow
nuclear magnetic resonance, mass flow, velocity probability distribution, noise, fluctuations 25

two-phase flow
spatial filtering velocimetry, 265

two-phase flows
bubble velocity, error analysis 39

ultrasonic flow metering
pipe flow, simulation, Fluent, code validation, numerical calibration 161

ultrasonic gas meter
flow visualisation, laser Doppler anemometry 133

uncertainty
flow-rate, asymmetric flow, laser Doppler velocimetry, point-velocity methods, 201

velocity probability distribution
nuclear magnetic resonance, two-phase flow, mass flow, noise, fluctuations 25

velocity profile
skin friction, surface shear 99

velocity profiles
LDV, flow conditioning 181

velocity vectors
real-time velocity vectorisation, particle tracking anemometry, flow vectors, flow field display 273

venturi
fluidic flowmeter, Coanda device, vortex amplifier 91

vortex amplifier
fluidic flowmeter, venturi, Coanda device 91

vortex flowmeters
bluff body, vortex shedding, 85

vortex shedding
bluff body, vortex flowmeters 85

Youden analysis
laboratory intercomparison, flowmeter calibration facility, Student's *t*-distribution 19
